“

Hello,

The Korea Exhibitions Directory was first published in the 2002 Korea–Japan World Cup Year. I am very happy to publish my 21st book after 20 years of publishing business.

The Korean exhibition industry is the fastest in the world to overcome the crisis in which all exhibition centers have been ‘shut down’ due to the ‘COVID–19 Pandemic’. During the pandemic, we achieved ‘minimizing COVID–19 infection of exhibition visitors’ through active support from the Government and the National Assembly and thorough quarantine activities through cooperation of exhibition industry workers.

As a result, Korean exhibitions have a new reputation as the safest business platform in the world.

The first modern exhibition held in Korea was the '1st Korea Trade Fair' held on September 9, 1968. There were no exhibition center at that time. However, there are currently 17 exhibition centers with a total size of 320,000 square meters in 12 major cities. In 2019, more than 650 exhibitions were held, with a total of 8 million visitors, and it has grown into an industry with 53 billion U.S dollar in economic effects. Although it turned negative due to the COVID–19 pandemic, it is recovering rapidly.

[2023–2024 Korea Exhibitions Directory] is published for foreign governments, foreign embassies in Korea, overseas buyers, Korean governments, local governments, government agencies, trade promotion agencies, and participant corporations in the exhibitions. In this book, you can easily find information on major exhibitions held by individual industries and in each exhibition center.

I hope this book will help Korean and foreign participants promote trade and business activities through Korean exhibitions and discover new industrial information and business opportunities.

Thank you.

**Over view**

Exhibition Audit refers to objectively investigating confirming the data reported by exhibition organizer on space, number of exhibitors and visitors based on standardized criteria, and releasing the result to the public. Reliability of data and cross-comparison are necessary for exhibitor to better plan / organize their participation in the event and to accurately evaluate the performance of participation.

**Purpose**

**EXHIBITIONS IS OPPORTUNITY**

Secure objective, reliable data and statistics on exhibitors and visitors to facilitate internationalization of Korean exhibitions.

**MARKETING PURPOSES FOR EXHIBITORS AND ORGANIZERS**

Number of exhibitions continue to increase and their functions are complicating. Exhibitors pay enormous expense to participate in the events but have doubts on whether expected outcome is derived from the investment.

**RELIABLE DATA**

Provide credible basis for potential participants of the exhibition to help them make accurate decision based on reliable and objective information of the exhibition.

**ENCOURAGE FAIR COMPETITION**

Credible data on exhibition through Audit system encourages differentiation of exhibitions and competition among them; Audit system will result in creating fair environment for the market economy.
