REVIEW

## Dear readers,

I am Won Ick Seo, President of the Korea Exhibition Organizers Association.

It is my great honor to introduce the '2025-26 Exhibition Directory in Korea' to you. This directory has established itself as an essential resource that showcases the present and future of the ever-growing exhibition industry. Since its first publication in 2002, the number of exhibitions included has steadily increased, reflecting the ongoing growth of our exhibition industry.

The '2025-26 Exhibition Directory in Korea' categorizes exhibitions held in Korea by industry, product, and date, making it easier to find the information you need. In addition, it includes essential information such as the list of exhibition organizers, contact details for inviting buyers, and facilitating smooth connections with overseas organizations.

This directory is published for those who need exhibition information, including foreign governments, foreign embassies in Korea, overseas buyers, Korean government and local governments, government agencies, trade agencies, and companies participating in the exhibition. The detailed criteria make it easier to find key exhibition information, thereby enhancing the convenience of using the information.

We hope that the '2025-26 Exhibition Directory in Korea' will be a valuable resource for you in identifying exhibitions scheduled for 2025 and 2026, contributing greatly to your business.

Of course, this directory has limitations in that it does not include every exhibition held in Korea. However, we are making continuous efforts each year to expand the range of exhibitions covered, and we expect that through these efforts, the directory will grow into a comprehensive information tool that encompasses all domestic exhibitions.

Lastly, I would like to express my sincere gratitude to the officials of the Ministry of Trade, Industry and Energy's Trade Promotion Division, the President of the Korea Exhibition Industry Promotion Association, and many others who provided great support for the publication of this directory.

We hope that the 'Exhibition Directory in Korea' will serve as a useful resource in promoting trade and business exchange activities and discovering new industry information and business opportunities.

Overview

Exhibition Audit refers to objectively investigating confirming the data reported by exhibition organizer on space, number of exhibitors and visitors based on standardized criteria, and releasing the result to the public. Reliability of data and cross-comparison are necessary for exhibitors to better plan/organize their participation in the event and to accurately evaluate the performance of participation.

Purpose

EXHIBITION IS OPPORTUNITY

Secure objective, reliable data and statistics on exhibitors and visitors to facilitate internationalization of Korean exhibitions.

MARKETING PURPOSE FOR EXHIBITORS AND ORGANIZERS

Number of exhibitors continue to increase and their functions are complicating. Exhibitors pay enormous expense to participate in the events but have doubts on whether expected outcome is derived from the investment.

RELIABLE DATA

Provide credible basis for potential participants of the exhibition to help them make accurate decision based on reliable and objective information of the exhibition.

ENCOURAGE FAIR COMPETITION

Credible data on exhibition through Audit system encourages differentiation of exhibitions and competition among them ; Audit system will result in creating fair environment for the market economy.
