www.mebelalbina.ru

The history of our company begins in 1997. The main direction of the

factory's work is the production of cabinet and upholstered furniture of economy class. The production areas of the Albina factory are equipped with modern European equipment, which makes it possible to facilitate the work of employees, reduce the cost of manufacturing products, reduce the production time and create an attractive final price. One of the leaders in the domestic furniture market, offers mutually beneficial terms of cooperation to wholesale buyers. When developing furniture models, the interests, desires, needs of modern buyers, and requirements, the purpose of the premises, and fashion trends of the furniture market of Russia, and the financial capabilities of our customers are taken into account. The factory's specialists have developed a wide range of economy class cabinet furniture for various purposes. The staff of highly qualified specialists, the latest high-precision equipment allow us to direct the production of furniture from the Albina factory to the manufacture of models that will be in demand by a variety of buyers, which means that our wholesale buyers will be able to get the widest possible range of furniture, respectively, will be able to offer the end consumer a rich selection of furniture models at an affordable cost.

The production areas of the Albina factory are equipped with modern European equipment. Advanced technologies and high-performance equipment used in production make it possible to guarantee quality to its consumer at a stable affordable price. In addition, by monitoring each stage of furniture manufacturing, we can guarantee the result. Thanks to the production of high-quality and environmentally friendly products, our factory has been exported to the EU countries. In the future, it is planned to expand the product range, introduce new modern equipment, which will lead to an increase in jobs and improve the quality of products.

- Sale of machines and equipment from world manufacturers.

DSP Center - professional approach to the organization of furniture production!

DUSON LLC

Russian Federation
65, Svobody Str.
Kirov, 610000
Tel.: +7 (8332) 25 44 88
E-mail: kirov@duson.ru
duson.ru

Duson LLC is one of the leading Russian enterprises producing flexible bed bases (orthopedic grids). We develop, manufacture and sell orthopedic bed bases to the largest furniture factories in Russia and in the CIS countries. We are also ready to supply our products to developing partners.

We produce several model ranges of flexible orthopedic bed bases, including Comfort and Flex, as well as their modifications.

Our products have successfully passed voluntary certification for compliance with the requirements of GOST 19917-93 «Furniture for sitting and lying. General technical conditions» under the control of the All-Russian Association «Furniture Makers of Russia».

According to the results of participation in international exhibitions, Duson became the winner of the following competitions:

FOR HIGH CONSUMER PROPERTIES;

FOR HIGH ECO-FRIENDLY PRODUCTS;

FOR RATIONAL AND CAREFUL USE OF NATURAL RESOURCES.

In 2009, Duson LLC was awarded a silver medal «For Quality».

In 2010, products of the «Comfort UT» series became laureates of the All-Russian competition 100 Best Goods of Russia, and the commercial director was awarded the honorary badge «Excellent quality worker».

In 2011, the products of the Duson enterprise passed the voluntary GOST R certification, thereby once again confirming the high quality of our flexible bed bases.

E-mail: globexws@mail.ru
www.GlobexWS.kz

The «Globex WS» Co., Ltd was organized in 2011. Our company is engaged in production of a furniture edge of PVC in the territory of Kazakhstan in the city of Almaty. Monthly production volume is more than 60 tons of finished products, it is about 2 000 000 running meters.

Our company has mastered the production of more than 160 colors and decors, 85 of which are included in the catalog of permanent products. Production and technological possibilities of our production allow to let out the sizes of a tape on a thickness from 0.5 mm to 2mm, on width from 19mm to 57mm. Non-standard sizes are also possible to produce, but with prior approval for the order of the die of the required size. Production of more than 20 types of surface structure, such as ash pores, oak structure, «orange peel» has been mastered. Every month, 4-6 new product decors are added to the range, which has become very important in the light of changes in the color palette on the chipboard market over the past two years. The ability to quickly release new decors on the samples of the customer gives an advantage to our partners to introduce new products in the production of chipboard.

Brand: Vash Loft (English: Your Loft)

- 50+ employees in the company: to select the best, we've selected from hundreds of candidates - we know how to build a team.

- 70+ joint partners: a complex quality product can only be made with reliable partners - we are constantly looking for the best in the business.
- 195+ cities of presence: the scale of our thought was initially such that one city was not enough for us - now one country is not enough for us either.
- 220+ sq.m. sales and creativity office: we are ready to unite creative people under one roof - this year we will open a coworking space for Designers and Architects.
- 2100+ sq.m. production: once it seemed too much to us but now, we understand that we are only at the beginning of our journey - there are no development limits for us, and we hope, for you too.
- 5600+ satisfied customers: we have already developed our work system, but as we produce custom furniture, there is still a lot of interesting challenges ahead - we learn every day.
- 23,000+ calculated projects: we know the market well and know how to calculate - we have fair prices, and it will not change.
- 52700+ pieces of custom-made furniture: The range of what we have already done is large, but it pales in comparison to what we plan to do - we are unstoppable.
- 310,000+ attracted audience: we are always open to dialogue with our customers, and we have nothing to hide - we are proud of this and will continue to follow this principle.
- 10000000+ monthly views in social networks: the fact that people follow us and stay with us for many years proves that we are on the right track - we value and appreciate everyone, we will not let you down.
- Our furniture traveled 24,000,000+ km in total to our customers: we know exactly how to deliver furniture on time - we work throughout the Russian Federation, a little in CIS and in Europe and we strive to be all over the World.

And that's not our limit, the company has achieved it all in just 5+ years of work since 2016!

With VASH LOFT, we have created a reliable foundation to launch EGOS in 2022, that will be our reliable future!

ChiedoCover company is the leader in the sale of furniture and textiles in Russia.

Since 2007, we have been producing and selling HoReCa and home products: chairs, folding tables, textiles, cosmetics for hotels, sofas and armchairs. In the period from 2015 to 2018, the production of metal-frame chairs and wooden furniture was launched. We are constantly developing and in 2019 we started a new direction - the production of upholstered furniture. For today, our product catalog satisfies even the most demanding customers.

Our approach to work can be defined as «find everything you need in one place». Visit our website – you will find everything you need for a full-fledged furniture equipment for any room. Thanks to a huge selection of models, upholstery and frames, our furniture can easily be called a construction kit.

Currently, we are actively developing and building a network of branded showrooms throughout Russia and the CIS.

WOODPOWER LLP

Republic of Kazakhstan

301, Industrial zone

Almaty region, M. Tuimebayev village, 040702

Mob.: +7 702 792 48 04, +7 747 701 27 27, +7 747 306 78 89

E-mail: Wdpr.kz@gmail.com

Instagram: woodpower.kz

«WoodPower» is the only company in Kazakhstan from Almaty that specializes in its own production of thermowood from various types of wood (pine, larch, elm, ash, etc.) using a press vacuum drying complex, which has no analogue in Kazakhstan and countries of Central Asia.

Thermowood produced on our equipment undergoes preliminary drying and heat treatment at a high temperature from 180 to 220 degrees, depending on the density of the wood, which in an oxygen environment exceeds the combustion temperature. Due to this, wood changes properties at the molecular level, giving the material such additional quality as resistance to deformation under the influence of the external environment (humidity, heat or cold), environmental friendliness, increased strength and durability, fire resistance, protection from decay and insects. In the process of thermotreatment,

the wood acquires a noble shade, the texture and the pattern are more clearly visible and pronounced, that have characteristic only of expensive varieties of wood.

From thermowood, our company, by prior order, manufactures finished products in the form of front, terrace and deck boards, straight and oblique planks, garden parquet, lining, etc., which are used for decorative cladding of building facades, in the construction of terraces, gazebos, saunas, poolside spaces, benches, landscaping garden paths, balconies, showers, etc.

Our goal is to develop the culture of using thermowood and products made from it in Kazakhstan, as well as to strengthen the direction of Kazakhstani production, expanding the horizons of the brand «made in Kazakhstan»!

Sincerely, WoodPower.
