

Bill 2024

The Federal government

Draft budgetary financing act

A. Problem and objective

With the government's draft of the Federal budget by 2024, and the financial plan for the period up to the year

In 2027, after several years of crisis-fighting the house for a return to the financial household followed normality more.

At the same time, climate change, digitalization, and demographic development of English-

the country in front of other significant challenges, management, fiscal policy, health-care possible need. Add to that a solidification of the increase in the price level and the interest.

With the Federal budget for 2023, the regular credit limit according to the three exceptions, is-measured 2020 to 2022 is observed again. The government's draft of the Federal budget

In 2024, and the financial plan for the period up to the year 2027 put this course with the focus on to-

employment-oriented and growth-promoting stimuli. At the same time, the Federal government strengthens

government social cohesion, in the areas of internal security and defence-

for the defense, and the Transformation is driving towards a climate-neutral economy forward. Investments to secure the energy supply in the future of Germany

be conducted at a high level. To be able to set priorities, the Bundes-

government all the expenses made in the Federal budget to the test, Einsparpotenzial lifted and Expenditure is lowered.

The subject of the present financing of the budget act in the Director's are rung-sent-

throw to the Federal budget by 2024 and financial plan to 2027 considered Changes

when parents money, in the area of the Second book of the social code (SGB II), the third

Book of the social code (SGB III), of the Sixth book of the social code book (SGB VI), the

The eleventh book of the social code book (SGB XI), the Changes in the prices within the

national

Fuel emission trading, the resolution of the assets of "Digital infrastructure"

as well as Changes in the special Fund to the climate and the transformation Fund and the

Special Assets Bundeswehr.

B. Solution

The limit of taxable income (income limit), up to the to the To- spell is to parental allowance for Single parents, as well as for people with common men parents money claim to be determined uniformly for 150 000 Euro.

The special "Digital infrastructure" is resolved in the core budget about- leads.

In addition to the purpose of the special Fund "climate - and Trans- formation of funds" (KTF) in the climate and transformation Fund act is the Central Ver- stopper-aside of funds for the micro-electronics in the KTF regulated and Finance of the tracks of the Railways in the Federal government.

Like other young people of working age beneficiaries according to the will The second book of the social code (SGB II), 25. The age of not ha- ben, in the future, the benefits for inclusion in the work by the Jobcenter, son- dern active support services from the third book of the social code (SGB III) by the Agencies for work. The job centre will be relieved from this task. The up- previous Duplication in the promotion of training and employment promotion for boy People are no longer necessary.

The reduction of the increase in the amount of the additional Federal grant to legal chen pension scheme leads to a reduction of the Federal budget in the years 2024 to 2027.

The Federal grant for the flat-rate contribution to the expenses of the social care- ance is not applicable for the years 2024 to 2027 and is from the year 2028 again included. In order not to jeopardize the financial stability of the social long-term care insurance, to counter the financing of the loss of revenue from the suspension of the Bundeszu- shot of the feeder to the long-term care funds for the years 2024 to 2027 reduced.

In the fuel-emission trading law in the CO2

-Price path for the years 2024 and 2025 changed.

In addition, with the Amendment of the German armed forces financing and sondervermö- gene act in a more flexible use of the resources of the special assets Bundeswehr enable light to transport the material equipment of the Bundeswehr even better. In addition, the opposite of NATO made a commitment that every year at least two Percent of the gross domestic product for defense spending to meet.

C. Alternatives

Conceivable to maintain the assets of "Digital infrastructure". However, since no reasons for an exception to the principle of unity of the budget available such an exception to the budget would be politically more useful.

Alternatively, the Changes in the SGB II and SGB III for employable Specifications priority in accordance with SGB II, 25. Age is not yet fully completed, the current active promotion to remain in the job centers are. Thus, the double would lanes-speed with many parallel support offered and structures in the SGB III SGB II for this group of people, in particular, the Transition from school to work, the Training, preparation and placement, as well as large parts of the education and training assistance to-
to summarize, remain. The need for Coordination between the job centre and the Agencies for working with the active support services remains constant.

In the Rest of the consist to the target no Alternatives achievement.

D. budget expenditures without compliance costs

Federal parental allowance and parental leave act

By lowering the income limit in accordance with section 1, paragraph 8, BEEG result-savings in the parents ' money, which in the year 2024 to 150 million euros in the year 2025 to 400 Million euros, and in subsequent years on a year to 500 million euros.

Digital infrastructure Fund act

The Federal budget in the year 2024 by the amount of the same implementation of the Programs of expenses out of the assets of a household expense in the amount of approximately 2.7

Billion Euros. Due to the elimination of the purpose for the special "Digital Infrastructure" will not be assets of the frequency revenues in the special, but in the Federal budget collected. The special assets of the existing assets in the year 2024 in the Federal budget received. As for the determination of the transfer amount of the Ab-conclusion of business management 2023 must be available, and the amount at the present time the point is not definitively be determined. In the government's draft of the Federal budget 2024 will take into account a transfer from the special Fund in the amount of approximately 4.2 billion Euro taken into account.

For States and municipalities have no budget expenditure without compliance costs.

Climate and transformation Fund act

By the amendment of the law no budget expenditure.

Second book of the social code book and the Third book of the social code

The Transition of the Advisory, conciliation and the promotion of under-25-year-old erwerbsfähiger Leistungstitel (ELT) to the legitimate holder of SGB II in the SGB III

Reduction in expenditure in the amount of 0.9 billion euros a year for the Federal budget from the year

2025. Of this, approximately 0.6 billion euros of spending allocated for administrative costs and Personal

and 0.3 billion euros in spending for inclusion in the medium. The more spending in the budget of the Federal Agency for work in the amount of approximately 1.0 billion euros per year from 2025

compared with 0.7 billion euros for administrative costs and staff (including Disincentive costs in accordance with E. 3), and 0.3 billion euros for inclusion in the medium. By the Provi-

vision of performance for all young people under 25 years of age, regardless of whether they from a budget, the existence assurance services, synergy-effects, be better used, as this would be at different responsibilities of the case.

The local authorities are due to the Transition of the under-25-year-old working-Leistungstitel entitled to be relieved of around 0.1 billion euros, as the municipal share of the Verwaltungskosten in the future, obtained in the budget of the Federal employment Agency.

The Sixth Book Of The Social Code

The reduction of the increase in the amount of the additional Federal grant in accordance with § 213

Paragraph 4 of the Sixth book of the social code book (SGB VI) in the years 2024 to 2027 around 600 million Euro in 2024 to 2026 results in the discharge of the Bundeshaushalt for the same amount. Due to the reduction in 2027 an annual a tenth of a higher contribution rate to the General pension insurance scheme, with a higher more General Federal grant (around 320 million euros) and with higher contributions of the Federal government grants for children's education times (around 110 million euros) goes hand-in-hand. The discharge of the

Federal budget in respect of the General pension insurance will be reduced in the year 2027 to around 170 million euros. Due to the higher contribution rate in year 2027 the Federal subsidy falls to the miners ' pension insurance of around 25 million euros less.

The Eleventh Book Of The Social Code

The Federal government caused by the suspension of the Federal grant to the social care insurance in the years 2024 to 2027, the annual reduction in expenditure in the amount of EUR 1 billion.

Euro. The social care insurance caused by the suspension of the Bundeszu-

shot in the years 2024 to 2027, the annual loss of revenue in the amount of 1 billion Euro. According to an annual minimum in the same period, expenditure by the Lowering of the additions to the long-term care provision Fund.

Fuel emission trading act

Due to the Change in the fuel emission trading act, no increased arise Budget expenditures without compliance costs. The increase in the price path a leads to Increase sale revenues, for the years 2024 and 2025 to the extent of about 1.3 billion Euro.

On the other hand, is com by the price increase is also expected in the- compensation of the requirements in the framework of measures for the preservation of the competitiveness

Company in accordance with the purpose, on the Basis of § 11 of the fuel emission trading law, he- failure to regulations for financial compensation increase. Since these financial com- Pensa information are granted trailing in the following year, the Compensation requirements in the year 2025, about 90 million euros in the year 2026, about 74 million euros.

Bundeswehr financing and special assets act

The Federal budget is created for the duration of the existence of the special Fund no Effort. For States and municipalities have no budget expenditures, excluding Maintenance- the conversion effort.

E. Compliance Costs

E. 1 compliance costs for citizens

By the law no compliance costs for citizens is created.

Due to the reduction of the limit of income for the justification of the Elterngeldan- award will be reduced in the case of the citizens of the cost in the amount of approximately 160 000 hours and the material costs of approximately 120 000 euros.

E. 2 compliance costs for the economy

The economy is not a fulfillment of expenses by the law.

Due to the reduction of the limit of income for the justification of the Elterngeldan- award will be reduced for the economy of the annual compliance costs of information obligations of approximately 843 000 Euro.

Of administrative costs from information obligations

Due to the reduction of the limit of income for the justification of the Elterngeldan-award will be reduced for the economy of the annual compliance costs of information obligations of approximately 843 000 Euro.

Moreover, no additional obligations to provide information to be introduced, amended or managed.

E. 3. compliance costs of the administration

For the Federal employment Agency annual compliance costs for the Transition the Advisory, conciliation and the promotion of under-25-year-old working performance authorized by the SGB II in the SGB III from the year 2025, the corresponding reductions in the compliance costs of the job centers face. Through the required preparation of the Transition of the Tender-privileged under the age of 25 are additional expenses in the year 2024.

Moreover, no additional administrative burden caused by the law with the Federal government. The management of the Bundeswehr, a special Fund within the Management sheep of the Federal budget already existing organization structures. By Resolution of the assets of "Digital infrastructure" is the administrative burden the Federal government has only slightly reduced. The management of funds continues to be intra-half of the for the management of the Federal budget already existing organizational structures.

By the Amendment to the Federal parental allowance and parental leave act, the annual reduced-fulfillment expenses by around 2 507 000 Euro. Of -2 424 at approx. 000 Euro annual compliance costs on the countries (incl. Municipalities) and -83 000 Euro Federal. Countries and municipalities created in the Rest of the no compliance costs.

F. Additional Cost

By the national fuel emission trading, all managers are required to acquire a number of certificates, the CO₂

Emissions from the use of the each reporting year, the sold quantity of fuel equivalent. This to-additional costs in the amount of the allowance price, which at the same time the revenue by the Sale of the certificates match. Due to the increase in the allowance prices in the Fixed price phase will also increase the revenue from the sale of the certificates in the Years 2024 and 2025, respectively, about 1.3 billion Euro.

The additional revenue from the fuel emission trading flow completely in the KTF and used for the refinancing of the measures provided for. Impact on the Price level are not expected.

The rest of the changes to the law are no additional costs; impact of on the price level and, in particular, the level of Consumer prices, as well as on the social Si insurance systems are not to be expected.

(1) Dieses Gesetz tritt vorbehaltlich des Absatzes 2 am 1. Januar 2024 in Kraft.

(2) Artikel 4 und Artikel 5 treten am 1. Januar 2025 in Kraft.

Justification

A. General

I.

Purpose and necessity of rules

With the government's draft of the Federal budget by 2024, and the financial plan for the period up to the year

In 2027, after several years of crisis-fighting the house for a return to the fi hold-scal followed normality more.

At the same time, climate change, digitalization, and demo stations graphical development of English-the country in front of other significant challenges, management, fiscal policy, he-possible need. Add to that a solidification of the increase in the price level and the Interest.

The long-term sustainability of public finances, writes the

The basic law (GG) for the Federal Republic of Germany in article 109 of the households of The Federal government and the countries of the principle of without revenue from credits balanced

Budget. For the Federal government this principle is taken into account, if the struc-interest deficit to 0.35% of GDP does not exceed.

This principle is in accordance with the financial policy exception to this situation in the years 2020,

2021 and 2022 to continue and in the future is of particular importance to the financial To strengthen resilience. After several years of anti-crisis measures, the house must hold

expansionary fiscal policy and the return to financial normality to be followed up.

With the draft Federal budget for 2024 and the financial plan to 2027, the Bund sets government priorities are clear. The total expenditures in all years compared to the current financial year reduced to the observance of the regular credit-top-to limit the debt rule, for sure. This is a very restrictive fiscal policy is inflationary Pulses and strengthens the fiscal resilience of the Federal government.

At the same time, the Federal government strengthens social cohesion, the spaces- che's internal security and defence, and driving the Transformation towards a climate- neutral economy forward. Investments to secure the energy supply and in the future of Germany will be led at a high level. These adre- in particular, the areas of climate protection, energy transition, mobility and Digitalization sieren- tion. You can improve the supply side and on the basis of innovations and private investment, encourage, and thus the economic development of the economist- to promote the shaft. To be able to set priorities, the Federal government all Expenditure in the Federal budget to the test, potential savings to be lifted and Expenditure is lowered.

The subject of the present financing of the budget act in the Director's are rungsent- throw to the Federal budget by 2024 and financial plan to 2027 considered Changes when parents money, in the area of the Second book of the social code (SGB II), the third Book of the social code (SGB III), of the Sixth book of the social code book (SGB VI), the The eleventh book of the social code book (SGB XI), the Changes in the prices within the national Fuel emission trading, the resolution of the assets of "Digital infrastructure" as well as Changes in the special Fund to the climate and the transformation Fund and the Special Assets Bundeswehr.

II.

The essential content of the draft

The limit of taxable income (income limit), up to the to the To- spell is to parental allowance for Single parents, as well as for people with common men parents money claim to be determined uniformly for 150 000 Euro.

The special "Digital infrastructure" is resolved in the core budget about- leads.

With the addition of the purpose of the KTF is the promotion of micro electronics in the future, more from a variety of titles in the Federal budget, but from a Central location

the special assets KTF financed. The Central estimate is appropriate, since the Funding for climate-neutral technologies and, therefore, for a successful Transformation the German economy, the climate neutrality of high relevance. In addition, it is clear-provided, that in the KTF in the future, measures for the financing of the rail due to the Federal Railways can be estimated.

Like other young people of working age beneficiaries according to the will The second book of the social code (SGB II), 25. The age of not ha-ben, in the future, the benefits for inclusion in the work by the Jobcenter, son-derm active support services from the third book of the social code (SGB III) by the Agencies for work. The job centre will be relieved from this task. The up-previous Duplication in the promotion of training and employment promotion for boy People are no longer necessary. All young people have in the future, regardless of their egg genes financial Situation or that of their parents - and the same point of contact for support in the Integration into training or work. Accompanying regulations to a subsequent legislative procedure are introduced.

The reduction of the increase in the amount of the additional Federal grant to legal chen pension scheme leads to a reduction of the Federal budget in the years 2024 to 2027.

The Federal grant for the flat-rate contribution to the expenses of the social care-ance is not applicable for the years 2024 to 2027 and is from the year 2028 again included. In order not to jeopardize the financial stability of the social long-term care insurance, to counter the financing of the loss of revenue from the suspension of the Bundeszu-shot of the feeder to the long-term care funds for the years 2024 to 2027 reduced.

In the fuel-emission trading law in the CO2

-Price path for the years 2024 and 2025 changed.

With the Change of the Bundeswehr financing and special funds act is a the more flexible use of the resources of the special assets Bundeswehr, the to transport equipment of the Bundeswehr even better. In addition, in the changing sections of the Bundeswehr special property act contained Be-restrictions for the implementation of the national target and the international investments made Commitments, permanently at least two percent of gross domestic product for the Defenders-aside to spend to be adjusted.

III.

Alternatives

In the case of maintaining the assets of "Digital infrastructure" would be the exceptions from the principle of unity of the budget to maintain, although no reasons for the exception-

men are. This is not the budget, political preference act age-worthy-native.

Alternatively, for the acquisition of eligible beneficiaries after the Second book can Sozialgebetting book of 25. Since the previous active fjord have ends-of stay in the job centers are. Thus, the duplication with many, however, would parallel support offered and structures in the third book of the social code, and in the Twoten book of the social code book for young people, in particular, the Transition from the School in the profession, the training, preparation and placement, as well as large parts of the The promotion of training include, remain unchanged.

In the Rest of the consist to the target no Alternatives achievement.

IV.

Legislative competence

For in article 1 contained in the Amendments to the Federal parental allowance and parental leave act the legislation follows the competence of the Federal government under article 74, paragraph 1, point 7 GG (public public welfare). The parental allowance is a benefit for the public welfare in the sense of of this standard. The authority of the Federal government, for the use of the Gesetzgebungskompetence is based on article 72, paragraph 2 of the basic law. The new rules will serve both the Establishment of equivalent living conditions throughout the Federal territory, as well as the safeguarding of the Legal or economic unity in the national interest of a state Control. The regulations for the parents money for the production of equivalent Life ratios of particular importance, since the sustainable financial support of the and the economic existence of parents and children in the whole of the Federal Republic of Germany-land of cause. The embodiment of the parents money has a direct influence on the He-participation of parents, and the corresponding requirements Employers, on the changing conditions of employment of mothers and fathers set. This is the whole of the German labour market is affected. By a uniform Federal legislation in the field of public welfare, to prevent-requires that, within the Federal Republic of Germany by the way of Control lung lot of wrinkles develop at the country level, a refining of the Law in this area could.

In article 2 and in article 3 contained in the Changes of the digital infrastructure Fund-law and climate and transformation Fund law power of the Federal of his Arti-article 110, paragraph 1 of the basic law as the Constitution permitted by law prerequisite expertise to the Re-

ments and design of special use. The Resolution is part of-
sung by special assets.

For in article 4 of the Amendment contained in the Second book of the social code book results Legislative competence of the Federal government under article 74, paragraph 1, point 12 GG (working mediation), and article 74, paragraph 1, point 7 GG (public welfare) in connection with Article 72, paragraph 2 of the basic law. The Federal government has the legislative competence in the area of the base security for job-seekers, since the establishment of equivalent living conditions in the The Federal territory and the maintenance of legal or economic unity in the state Interest with a Federal regulation required by article 72, paragraph 2 of the basic law), is (. Only by the legislation of the Federal uniform conditions of life ge can- ensure. In the Federal Republic of Germany, the level of employment and Income level are significant regional differences. A uniform Federal Supreme court- legislation in the field of public welfare, to prevent within the Federal Republic of Germany developed the social fabric apart.

The legislative competence of the Federal government for in articles 5 to 7 contained Changes gene of the third book of the social code, the Sixth book of the social code book, as well as in the Eleventh book of the social code book is based on article 74, paragraph 1, point 12 GG (Employment, social security, including unemployment insurance).

For in article 8, containing Amendments to the fuel emission trading act the legislative competence, as well as for the tribe of law, the competence of the

Federal government to concurrent legislation in the field of air pollution and of the Right the economy in accordance with article 74, paragraph 1, point 24, and 11 GG. On the comments to
Necessity of a Federal regulation in the Bundestag printed paper 19/14746 is referenced.

The legislative competence of the Federal government in article 9 Amendment of the Bundeswehr financing and special assets-in law, it follows from article 87a- set 1a and article 110, paragraph 1 GG.

V.

Compatibility with European Union law and international law Contracts

The law is the law of the European Union and the international law Dreamy- gen concluded by the Federal Republic of Germany, is compatible.

VI.

Regulatory impact

1. Legal and administrative simplification

Due to the changes in the Law to the digital infrastructure Fund act, slight arise Legal and Administrative simplifications for the Federal government and the affected countries. It is the stated goal of existing processes and procedures are largely retained.

The law changes to SGB II and SGB III cause a discharge of duties and Administrative simplifications in the job centers. Due to the elimination of the vote. mungsaufwandes between job centres and employment agencies with the active support tion of citizens ' money referring young people in the Transition from school to work may be the promotion of a more targeted and efficient. The cost of sponsorship for the support clothes of the young people to the unemployment insurance (SGB III).

To Change the fuel emission trading law in respect of the Law and Administrative simplification in the explanatory Memorandum to the ordinary law, the Bundestag printed paper 19/14746, referred to.

In the Other caused by the legal changes in any relevant Laws and administrative Tung simplifications for the Federal government.

2. Sustainability aspects

The law is in line with the national sustainability strategy of the Federal government tion. The regulations will, among other things, the administrative burden to reduce to reduce, to simplify the administrative procedures and interfaces, Wallpaper and to apply the brakes, increasing expenditure, such as when parents money. Thus, the law to Achieve bears- the realization of the objectives in the area of public debt (indicator 8.2) of the German Sustainable- keitsstrategie in. To Change the fuel emission trading law in terms of the examination of the sustainability aspects of the justification of the Second law to the Lo- ation of the fuel emission trading act, BT-Drs. 20/3438, p. 11 f., referred to. These remarks apply for in the present law, have made Changes increases accordingly.

3. Budget expenditures without compliance costs

Federal parental allowance and parental leave act

By lowering the income limit in accordance with section 1, paragraph 8, BEEG result-savings in the parents' money, which in the year 2024 to 150 million euros in the year 2025 to 400

Million euros, and in subsequent years on a year to 500 million euros.

Digital infrastructure Fund act

The Federal budget in the year 2024 by the amount of the same implementation of the Programs of expenses out of the assets of a household expense in the amount of approximately 2.7 Billion Euros. Due to the elimination of the purpose for the special "Digital Infrastructure" will not be assets of the frequency revenues in the special, but in the Federal budget collected. The special assets of the existing assets in the Federal budget 2024 collected. As for the determination of the transfer amount of the final the economic management of 2023 must be, not the amount at the present time be finalised. In the government's draft Federal budget for 2024 is a Transfer from the special Fund in the amount of about 4.2 billion euros taken into account. The Funding for the digital Pact school is without prejudice to the resolution of the Fund's assets from the General budget guaranteed and should in the future plan on the individual 30 be done. For the Refinancing of the total by the end of 2023 received obligations tions and the need for new signings in the year 2024 with maturities in the follow-years in the amount of a maximum of 3,835 billion euros for the Gigabit network expansion is required

Funds from the section 60 in section 12 and in section 12 be-may be estimated. For the Refinancing of the total by the end of 2023 commitments and the need for new signings in the year 2024 with Due to radio in the years to follow, for the mobile expansion in the amount of a maximum of 422 million.

Euro-needed funds from the section 60 in the sections 10 and 12 reverse and needs assessment. The Expansion of the mobile network in the Areas in which the mobile operators no support obligation should not provided funds in the annual budget preparation needs-based right in section 12 are estimated.

For States and municipalities have no budget expenditure without compliance costs.

Climate and transformation Fund act

By the law no budget expenditure. The Federal budget is ver-anschlagten budget resources for the promotion of micro-electronics are now Central in the Son-asset KTF estimated. In addition, it is explicitly stated that the financing of of the rail because of the Covenant with the purpose of KTF is compatible.

Second book of the social code book and the Third book of the social code

The Transition of the Advisory, conciliation and the promotion of under-25-year-old erwerbsfäh-functional-power to the legitimate holder of SGB II in the SGB III

Reduction in expenditure in the amount of about 0.9 billion euros a year for the Federal budget from the
The year 2025. Of these, approximately 0.6 billion in costs euros on expenses for administration and
Staff, as well as around 0.3 billion euros in spending for inclusion in the medium.

The expenditure in the budget of the Federal Agency for work of a similar amount of approximately 1.0 billion euros per year from 2025 to. Around 0.7 billion is attributable to management costs and staff. The expenditure in the budget of the Federal employment Agency share to around 0.1 billion due to the consideration of the municipal Finance
The Euro is higher than the minimum for expenditure in the SGB II, because of this municipal contribution in book II
Available for in SGB III, however, from the budget of the Federal Agency
Work must be provided. The municipalities are in this respect, the Transition by around 0.1 billion Euro relieved. By the provision of the service for all young people under 25 years of age, regardless of whether they come from a household the existence assurance services, synergy effects be better used as this would be at different responsibilities of the case.

The Sixth Book Of The Social Code

The reduction of the increase in the amount of the additional Federal grant in accordance with § 213
Paragraph 4 of the SGB VI in the years leading 2024 to 2027 to 600 million Euro in the years 2024 to 2026 to a reduction of the Federal budget in the same amount. Due to the Reduction in the year 2027, a one-tenth of a higher contribution rate to the General nen pension insurance, the subsidy with a higher General Federal (320 Million Euro) and with higher contributions of the Covenant of time (around 110 Million euros) goes hand-in-hand. The discharge of the Federal budget in respect of the General Pension will be reduced in the year 2027 to around 170 million euros. Due to the higher contribution rate in the year 2027, the Federal subsidy falls to almost scientific- chen pension of around 25 million euros lower.

The Eleventh Book Of The Social Code

The Federal government caused by the suspension of the Federal grant to the social care insurance in the years 2024 to 2027, the annual reduction in expenditure in the amount of EUR 1 billion.
Euro. The social care insurance caused by the suspension of the Bundeszu- shot in the years 2024 to 2027, the annual loss of revenue in the amount of 1 billion Euro. According to an annual minimum in the same period, expenditure by the Lowering of the additions to the long-term care provision Fund.

Fuel emission trading act

Due to the Change in the fuel emission trading act, no increased arise Budget expenditures without compliance costs. The increase in the price path a leads to Increase sale revenues, for the years 2024 and 2025 to the extent of about 1.3 billion Euro.

On the other hand, is com by the price increase is also expected in the- compensation of the requirements in the framework of measures for the preservation of the competitiveness
Company in accordance with the purpose, on the Basis of § 11 of the Swiss stock exchange act rules adopted for the fi-
nancial compensation increase. Since these financial compensation in each case according to the- continuously in the subsequent year will be granted, it increases the need for Compensation, in the year 2025
about 90 million euros, and in the year 2026, about 74 million euros.

Bundeswehr financing and special assets act

The Federal budget is created for the duration of the existence of the special Fund no Effort. For States and municipalities have no budget expenditures, excluding Maintenance- the conversion effort.

4. Compliance costs

4.1. Compliance costs for citizens

By the law no compliance costs for citizens is created.

By the Amendment to the Federal parental allowance and parental leave act, which He is reduced- filling costs for citizens, as follows:

Change in the annual time burden (in hours):

-160 000

Change in the annual General and administrative expenses (in thousand. Euro):

-120

One-time expenditure of time (in hours):

[fentlicher-Dienst/Tabellen/beschaefigungsbereiche.html](https://www.destatis.de/DE/Themen/Staat/Oeffentlicher-Dienst/Tabellen/beschaefigungsbereiche.html)

). Accordingly, accounts for

around 47 000 parents money applications (= 55 000 – 55 000 * 0,15) Employees in companies the private sector of the economy.

For the issuance of a certificate of income and time sheets as well as answer any questions from the parents money to be place in the cut approximately 28 minutes. The postal Delivery of a certificate is also causing In-kind cost-per-case, in the amount of approximately 1 Euro. For further investigation of the Erfüllungsaufwands of the guide, the average wage rate of the overall economy is 36,30 EUR per hour set.

Due to the allocable to the certificates of the working of the economy an annual discharge of the administrative costs in the amount of approximately 843 000 Euro (= 47 000 * [28/60 hrs * 36,30 EUR/h + EUR 1]).

Moreover, no additional information requirements are introduced to new, changed, or-lifted.

Overall, the Changes amount to an "Out" in the amount of approximately 843 000 Euro The meaning of "One in, One out rule" of the Federal government.

4.3. Compliance costs of the administration

For the Federal employment Agency annual compliance costs for the Transition the Advisory, conciliation and the promotion of under-25-year-old working performance authorized by the SGB II in the SGB III from the year 2025, the corresponding reductions in the compliance costs of the job centers gegenüberste hen. Through the required preparation of the Transition of the performance under legitimate 25 years caused more expenses in the year 2024.

Moreover, no additional administrative burden when created by this act Federal. The management of the Bundeswehr, a special Fund within the Management of the Federal budget already existing organization structures. Due to the Change in the digital infrastructure Fund act, the compliance costs for the Federal government has only slightly reduced; the management of resources will also continue to within the management of the Federal budget already existing organiza-tionsstrukturen.

By the Amendment to the Federal parental allowance and parental leave act, which He is reduced-filling expenses for the administration as follows:

167 000 EUR (= 8 000 * [28/60 hrs * 42,50 EUR/h + EUR 1]). In the absence of
Knowledge about the distribution of this relating to certificates

Employer of the public service of the country and the Federal government, is assumed
gene that half of the necessary certificates to Federal authorities,
the other half is attributable to the country authorities.

5. Additional Costs

By the national fuel emission trading, all managers are required
to acquire a number of certificates, the CO

2

Emissions from the use of the

each reporting year, the sold quantity of fuel equivalent. This to-
additional costs in the amount of the allowance price, which at the same time the revenue by the
Sale of the certificates match. Due to the increase in the allowance prices in the
Fixed price phase will also increase the revenue from the sale of the certificates in the
Years 2024 and 2025, respectively, about 1.3 billion Euro.

The additional revenue from the fuel emission trading flow completely in the KTF
and used for the refinancing of the measures provided for. Impact on the
Price level are not expected.

The rest of the changes to the law are no additional costs; impact of
on the price level and, in particular, the level of Consumer prices, as well as on the social Si
insurance systems are not to be expected.

6. Further Legal Consequences

Taking into account the different situation of women and men
no effects are seen, the equality policy objectives in accordance with § 2 of the
Joint rules of procedure of the Federal ministries are contrary to.

VII.

With A Time Limit; Evaluation

The law does not provide for a time limit. The regulations are designed for the long term. A Eva-
evaluation is not provided, as the annual compliance costs for citizens and citizens-
ger, economy and management in the "guide to the evaluation of Regula-
gene of the Federal government in 2022" stated threshold values.

B. Special Section Of The

To article 1 (Amendment to the Federal parental allowance and parental leave act)

To Number 1

The limit of taxable income (income limit), the claim
on parents money, this will for Single parents, as well as for people with common El-
terngeld claim on unit reduction of 150 000 Euro.

The income limit is to be aligned with the objectives of the parents money. The Parents-
money will allow the parents to be largely independent of financial considerations
to decide the extent to which they work to the benefit of the care of the
Child, if you wish to. You will receive a replacement Income in the amount
of 67 per cent loss of Income in relation to income in the rated
period. The amount of the income rate in stages: In the case of income under 1 000

Euro rises to 100 per cent, on incomes of over 1 200 euros, it decreases gradually up to 65 per cent, of the maximum amount of parental benefit 1 800 euros.

This social embodiment of the parental allowance takes account of the fact that at low membered income to cope with a lower loss of Income is significantly harder to is, as in the case of higher income because of reduced opportunities in the independent-caring for a limited time period. This take with rising income to.

The elimination of the parental benefit at very high income in the tax period is as- here is justified. For the limit of taxable income, their Reach Elimination of the parental allowance leads, the legislature has a game room.

According to the purpose of the provision and the circumstances of the persons Concerned, there is no reason, the limit of income for people with a common parental allowance claim higher part of the requirements for the parent is recognised as a parents money claim fulfilled. Two parents take care of the child sizes, they have clearly-greater design possibilities as a single authorized Person with respect to the support clothes of the child, and the exercise of a professional activity: you can times the support so divide among themselves, that the employment of both parents, for example, part-time, or a parent, for example, full-time, is possible. Parents, it is significantly easier than a child alone, caring Person, in the time after the The birth of the child financially secure. Therefore, a reduction in the marginal amount for people with a common parent entitled to the same amount as for Single appropriate.

To Number 2

To point a

According to section 28, paragraph 1a, the Changes for births apply from the 1. January 2024.

To point b

It is a drafting amendment.

To article 2 (Change in the digital infrastructure Fund act)

The special "Digital infrastructure" was established in the year 2018, a purpose-bound, clearly defined and transparent use of revenues from the Allocation of mobile spectrum and the override availability on this Revenue-to enable men. The Fund is used for the promotion of investment in the Un-

support the development of mobile networks and Gigabit networks, as well as the granting of financial assistance to countries for the implementation of the digital Pact school.

The need for a defined use of the revenue from the granting of Frequencies for mobile but currently, the Program outputs the The amount of the frequency receipts regularly by far exceed. The funds are for to be flown down the digital Pact in school already and the set up Incentive programs to run in 2024, anyway according to plan. It is, therefore, no All the more reason for a separate sustained use of these revenues; a- an exception to the principle of universality, the purpose of this revenue for Expenditure in the special Fund is not required.

The special assets should now be resolved. As a result, the Sondervermö to- gene associated exception to the principle of the Universality and of the unity of the budget will be eliminated. This improves the Clarity by eliminating a separate economic management in the financial management in the Core budget in the individual plans of the relevant government departments. Thus, the financial- and responsibility brought together again. Notwithstanding the from a financing- the enhancement due to the administration agreement so far, out of the assets

provided financial assistance to the States for total state-significant investments in the digital educational infrastructure from the General budget to be ensured. Also best be- existing obligations up to the year 2023 and commitment appropriations of the house- maintenance 2024 for the promotion of investment in the direct support of the expansion of Gigabit networks and for the promotion of investment in additional mobile expansion out of the total budget funded.

The legislature may, by statutory rules, the laws. On the right- cleanup is a permanent task of the Federal government, and an important Element good legislation. Thus, the objective will be supported, the inventory of applicable laws and to keep regulations clearly, so clear you can see which legal norms today and in the future apply.

To Number 1

With the repeal of section 4 of the "assets of the special Fund and Finance" is ge- ensure that, prior to the beginning of the marketing year 2024, the earmarking of revenues not applicable. Also, the allocations from the Federal budget are no longer taken in the year 2024- see.

To Number 2

With the Amendment of section 9 of the "resolution" of the digital infrastructure Fund act is regulated, the special assets at 30. March 2024 is resolved. This time allows the required transfers to the preliminary annual financial statement, the rule for the middle of January, is set. The existing assets to the Federal budget 2024 dissipated. A corresponding adjustment of the economic plan of the Sondervermögen for the year 2024 is carried out in the further proceedings to the Federal budget by 2024. The Host- the partnership plan is the last time the Tables on the financial statements of the Federal government for the year 2024 attached.

To Number 3

The new rules in section 10, "expiry" according to the resolution of the special Fund serves the right to cleanup.

To article 3 (Change in the climate and transformation Fund act)

To Number 1

To point a

The Fund has a supporting function to the Federal climate protection act of 12. December 2019. Adaptations of this act is to-in the future, by means of a dynamic rule reference directly to the Fund to be relevant. This makes it easier at the same time Comprehensibility and Clarity of the scheme.

To point b

The special assets KTF allows pursuant to section 2 of the climate and transformation Fund act additional program expenditures for the promotion of measures for the achievement of the Climate protection targets, according to the Federal climate protection law serve. Eligible, in particular, are- other measures that are suitable, the Transformation of Germany into a sustainable- gene and climate-neutral economy forward.

Micro-electronics and communication technologies are key technologies of a lever as well as an indispensable basis for the Success of important transformation processes. Semiconductor products provide an essential component, and a multiplier for the

Value added in almost every economic activity in Germany and Europe. The promotion of micro-electronics has, therefore, also for climate-neutral technologies and thus for a successful Transformation of the German economy to climate neutrality is a

high relevance. The promotion is to titles, therefore, in the future, can't take any more different of the Federal budget, but Central to the KTF be financed. With the pre-provided for adjustment of § 2, paragraph 1, sentence 3, the Central estimate of the home-holding means for the promotion of micro-electronics in the KTF enshrined in law.

Investments in Railways, the Railways of the Federation make a contribution to the CO

2

-Neutrality of the traffic, and to serve the achievement of the objectives of the Federal climate-

protection act. Due to measures to strengthen, to increase capacity, to receive, to Quality improvement and digitalisation will shift more traffic to Rail.

The transportation of goods and transportation of people on the Rail, instead of the Street, is eco-friendly, climate neutral, and contributes to the CO 2

Reduction and, consequently, to the Kli-

maneutralität of traffic overall.

The promotion of micro-electronics and the rail routes of the Railways in the Federal should be ensured by an appropriate complement to the KTFG.

To Number 2

§ 10 (new) the Federal Ministry of Finance, the power of the law in the to make this amendment brought about version unknown. This is required because the climate and transformation Fund act since its introduction in the year 2010 multiple times comprehensively amended. The publication permission facilitates the application of the law.

To Number 3

Necessary as a result of a change to the number 2.

To article 4 (Modification of the Second book of the social code)

With the addition to article 5, paragraph 4, of working power to be legitimate, the 25. The family ends from the provision of services to the Einglie-claim in the work by the job centre after the First section of the third Chapter of the The second book of the social code book taken out. In the future, active support services for all under-25-Year-old uniform from the third book of the social code provided. The previous Duplication is eliminated.

To article 5 (Amendment of the third book of the social code)

Capable of working beneficiaries after the Second book of the social code are up to-length of the provision of section 22, paragraph 4, sentence 1 of the above-listed benefits of the third

Chapter excluded. This will in future be considered when working performance Tung-entitled 25. Age is not yet fully completed. Therefore, the Rückaus is-taking in clause 5 of this group of people was expanded.

Article 6 (Change of the Sixth book of the social code)

The reduction of Federal subsidies leads to a reduction of the Federal budget. The The reduction of Federal subsidies by the increase in the amount of the additional Federal grant will be reduced in the years 2024 to 2027, respectively, nominal 600 million Euro is. In the case of the annual update of the increase in the amount of this reduction is to ins-ball not included. The amount of the increase is thus at Least initially, without these-amount with the development of the gross wages and salaries and on-closing to 600 million euros reduced.

To article 7 (Change of the Eleventh book of the social code)

To Number 1

In the course of the deliberations on the Federal budget for the year 2024 has shown that to close budget gaps savings contributions from the individual home to the Bun to hold-desressorts are provided. For section 15 of the Federal Ministry of Health majority of the Federal grant in accordance with § 61a Abs is to do so. 1 for the years 2024 to 2027-out-sets.

To Number 2

In order not to jeopardize the financial stability of the social long-term care insurance, to Counter-financing of the loss of revenue from the suspension of the Federal grant the long-term care funds for the years 2024 to 2027, only 700 million euros, respectively. In the year 2024 for the year 2023 for feeding by the Pflegeun-ester tätigungs and relief act to in paragraph 3 are regulated separately, it remains un-touched. From the year 2028, the supply of the means of the sets again after the control Paragraph 1 a. From the year 2028, a flat-rate contribution of the Bun is also re-of the expenses of the social care policy in accordance with section 61a of the SGB XI.

To article 8 (Change of fuel emission trading act)

With the increase in the statutory fixed prices in the national Brennstoffemissionshandel for the years 2024 and 2025 on the basis of the decision of the Koalitionsausschusses of 3. September 2022 by the Second law Amending the Fuel emission trading act of 9. November 2022 made lowering of the fixed-price path is partially undone.

With the then-adopted Amendment to effect a shift to queue for the year-the increase in the CO2

Price from 2023 was carried out with the aim of citizens

Citizens and enterprises in the face of, in particular, in connection with the War is not happening in Ukraine and the strong increase in energy prices, in addition to be-loads. In the fall of 2022 feared a further escalation of the Situation on the energy markets did not set. Rather, a Stabilization is indicated for the moment-the price levels. Against this Background, 2024 is the year a partial Return to the previous provided for by law, the price path is useful to a wide- ren is Exceeded, the annual emission quantities of the fuel mission trading-law counteract.

To article 9, (Amendment of the German armed forces financing and special property act)

To Number 1

The specific measures that are necessary to the Alliance - and in Defense- to strengthen effectiveness and to close the capability gaps of the armed forces, to the German contribution to the existing NATO's ability to ensure that goals may be- do not handle to a narrow interpretation of the term "equipment operations" limited be.

The business plan for the special armed forces and the associated assets Explanations of the individual projects and their funding will be transparent presented in annual budget legislative procedure.

To Number 2

The re-acquisition, the preservation and strengthening of the Alliance and defense capability the German army cannot be delayed. The factor of "time" plays a crucial role. Should, in the framework of the implementation of a project delays, müs- sen the budget of the other in the economic plan to the special assets Bundeswehr contained projects are available so that potential Progress is not hindered, but in fact can be implemented. The reality military Tung investment projects in a particular political, legal and economic Environment must be taken into account. Previously in § 5, paragraph 2, sentence 1 of the

included

Control is to be cancelled for this reason.

The business plan for the special armed forces and the associated assets Secret notes will be shown on the eligible projects transparent provides.

In the accounts of the Federal government, the measures will be presented.

The title structure of the business plan to the special Fund of the Bundeswehr and the best Title structure of the respective Chapter of Section 14 (here, in particular, the Kapitels 1405) should be aligned. This creates increased transparency and prevents a virtually unlimited growth of single titles, the significant administrative effort would cause. In the case of so-called "global securities" or "Collection of songs", where several individual projects are funded, in full transparency, such as in the past, for example, in the Chapter 1405 of section 14, by means of appropriate Secret, He- purification of leaves produced. Previously in § 5, paragraph 2, sentence 2 of the included control to for this reason, be repealed.

To Come To In Article 10 (Date Of Entry Into Force, Except Of Motor)
