

1. COLAS ROJAS MINING PROJECT IN MOA

Description: Deposit of waste generated by the Pedro Soto Alba Factory, located in the Municipality of Moa, during its entire production stage, with high content of Iron and other metals, requiring funds to conclude the feasibility studies which, if positive, would allow to negotiate the constitution of a joint venture and subsequently implement the business until the exploitation of the deposit and the obtaining of marketable products

Sector: *Mining*

Activity: *Extraction of minerals from iron*

Investment amount: \$ 2,500,000 USD.

Sponsor: *Ministry of Energy and Mines*

National investor: *Commercial Caribbean Nickel S.A.*

Investment modality: *Risk contract for the exploitation of non-renewable natural resources*

Location(s): *Moa, Municipality Moa, State Holguín*

Contacts: Commercial Caribbean Nickel S. A

Email: ccn@ccn.co.cu, agongora@ccn.co.cu, isidro@ccn.co.cu

Tel.: (537) 862-4601/ 02 / 08, Phone Extension 2110,

Mob: +5352855984, +5352805471

2. COLAS NEGRAS NUEVAS MINING PROJECT IN MOA

Description: *New deposit of waste generated by the Ernesto Che Guevara Factory since March 2017 during its entire productive stage, located in the Municipality of Moa, with a high content of iron and other metals, requiring funds to conduct feasibility studies and determine a technology that allows the commercial extraction of these wastes, which, if positive, would allow to negotiate the constitution of a joint venture and subsequently implement the business until the exploitation of the deposit and the obtaining of marketable products.*

Sector: *Mining*

Activity: *Extraction of minerals from iron*

Investment amount: *\$ 10,000,000 USD.*

Sponsor: *Ministry of Energy and Mines*

National investor: *Commercial Caribbean Nickel S.A*

Investment modality: *Risk contract for the exploitation of non-renewable natural resources*

Location(s): *Moa, Municipality Moa, State Holguín*

Contacts: Commercial Caribbean Nickel S. A

Email: ccn@ccn.co.cu, agongora@ccn.co.cu, isidro@ccn.co.cu

Tel.: (537) 862-4601/ 02 / 08, Phone Extension 2110,

Mob: +5352855984, +5352805471

3. LATERITAS NICARO MINING PROJECT

Description: Deposit located south of the town of Nicaro, Municipality of Mayarí, with previous studies that prove the existence of Nickel, Cobalt and other metals, requiring funds to conclude the feasibility studies which, if positive, would allow to negotiate the constitution of a joint venture and subsequently implement the business until the exploitation of the deposit and the obtaining of marketable products.

Sector: *Mining*

Activity: *Extraction of other non-ferrous metal ores*

Investment amount: *\$ 7,000,000 USD.*

Sponsor: *Ministry of Energy and Mines*

National investor: *Commercial Caribbean Nickel S.A*

Investment modality: ***Risk contract for the exploitation of non-renewable natural resources***

Location(s): *Nicaró, Mayarí, Municipality Mayarí, State Holguín*

Contacts: Commercial Caribbean Nickel S. A

Email: ccn@ccn.co.cu, agongora@ccn.co.cu, isidro@ccn.co.cu

Tel.: (537) 862-4601/ 02 / 08, Phone Extension 2110,

Mob: +5352855984, +5352805471

4. COMPLEMENTARY EXPLORATION IN DEPOSITS, PROSPECTING AND RECONNAISSANCE FOR MANGANESE (MN) IN THE REST OF THE AREA CALLED MANGANESO CUBA ORIENTAL

Description: In a large manganiferous basin, there are several deposits containing resources of economic interest, some partially exploited and others virgin, as well as areas of great perspective to increase new deposits. The constitution of an AEI contract at risk will allow to develop a process of verification of previous results and confirmation of the existing resources in the deposits, to make its geological modeling with updated economic criteria, in a certified and internationally acceptable format, on the basis of which the feasibility study of the project would be presented, including basic engineering projects.

*Sector: **Mining***

*Activity: **Extraction of other non-ferrous metal ores***

Investment amount: \$ 5,000,000 USD.

*Sponsor: **Ministry of Energy and Mines***

*National investor: **GeoMinera S.A.***

*Investment modality: **Risk contract for the exploitation of non-renewable natural resources***

*Location(s): **There are 6 sectors located in the provinces of Granma and Santiago de Cuba., Municipality Varios, State Granma***

Contact: GeoMinera S.A.

Email: direccion@gmsa.cu

Tel.: + 5376902741

Sitio web: <http://www.gmsa.cu>

5. PRODUCTION AND COMMERCIALIZATION OF ROCK SALT AND ITS DERIVATIVES BY THE EXPLOITATION OF THE PUNTA ALEGRE SALT DOME

Description: *The deposit contains significant salt resources. The constitution of a Joint Venture will allow the development of a verification process of previous results, definition of the optimal technology for the extraction and processing of salt and its derivatives, carrying out a market study, modeling the business with updated economic criteria, in a certified and internationally acceptable format, on the basis of which the project feasibility study, including basic engineering projects, would be presented.*

Sector: Mining

*Activity: **Salt extraction***

Investment amount: \$ 2,000,000 USD.

*Sponsor: **Ministry of Energy and Mines***

*National investor: **GeoMinera S.A.***

*Investment modality: **Join Venture***

*Location(s): **Municipality Chambas, State Ciego de Ávila***

Contact: GeoMinera S.A.

Email: direccion@gmsa.cu

Tel.: + 5376902741

Sitio web: <http://www.gmsa.cu>

6. PROSPECTING AND GEOLOGICAL EXPLORATION FOR BASE AND PRECIOUS METALS (CU-AU-AG) IN THE ARIMAO - LAS BREÑAS AREA, IN CIENFUEGOS PROVINCE

Description: There is a porphyry copper-gold deposit with more than 60 million tons, unexplored, where the extension of the silicified zone and of the ores rich in magnetite with high associated grades of Cu and Au, is still undetermined. There are, in addition, other manifestations to study. The constitution of an AEI at risk contract will allow the development of a study completion process, verification of previous results and confirmation of existing resources, modeling it with updated economic criteria, with certified and internationally acceptable formats, on the basis of which the EFT Project would be presented, including basic engineering projects.

Sector: Mining

Activity: Extraction of other non-ferrous metal ores

Investment amount: \$ 5,000,000 USD.

Sponsor: Ministry of Energy and Mines

National investor: GeoMinera S.A.

Investment modality: Risk contract for the exploitation of non-renewable natural resources

Location(s): It is located in the northeastern part of the Cienfuegos Province, from 7 to 28 km from the provincial capital and port of Cienfuegos, with which it communicates through the Cienfuegos - Cumanayagua – Manicaragua Highway., Municipality Cumanayagua, State Cienfuegos

Contact: GeoMinera S.A.

Email: direccion@gmsa.cu

Tel.: + 5376902741

Sitio web: <http://www.gmsa.cu>

7. GEOLOGICAL EXPLORATION FOR GOLD AND BASE METALS (AU-CU-ZN) IN THE CARLOTA, VICTORIA AND GUACHINANGO DEPOSITS, AS WELL AS PROSPECTING IN THE SIGUANEA AND SAN NARCISO MANIFESTATIONS.

Description: *There are several deposits that contain resources of economic interest, as well as unexplored mineral bodies and prospective areas for the discovery of new mineral deposits. The constitution of an AEI at risk contract will allow the prospecting, verification of previous results and confirmation of the existing resources in the deposits. carry out its geological modeling with updated economic criteria, in a certified and internationally acceptable format, on the basis of which the project's feasibility study, including basic engineering projects, would be presented.*

Sector: *Mining*

Activity: *Extraction of other non-ferrous metal ores*

Investment amount: *\$ 5,000,000 USD.*

Sponsor: *Ministry of Energy and Mines*

National investor: *GeoMinera S.A.*

Investment modality: *Risk contract for the exploitation of non-renewable natural resources*

Location(s): *It is located in the northern part of the Alturas de Trinidad, at altitudes between 500 and 750 m above mean sea level. It is located 40 km to the SSW of the city of Santa Clara and 40 km to the E of the port of Cienfuegos, with which it communicates through, Municipality Cumanayagua, State Cienfuegos*

Contact: GeoMinera S.A.

Email: direccion@gmsa.cu

Tel.: + 5376902741

Sitio web: <http://www.gmsa.cu>

8. PROSPECTING AND GEOLOGICAL EXPLORATION FOR GOLD AND BASE METALS (AU-CU) IN THE GASPAR - EL PILAR AREA

Description: *The El Pilar deposit contains resources of economic interest. In the adjacent zones there are high prospects of finding similar or larger deposits. The constitution of an AEI contract at risk will allow to expand resources, develop a process of verification of previous results and confirmation of the existing resources in the deposits, make its geological modeling with updated economic criteria, in a certified and internationally acceptable format, on the basis of which the feasibility study of the project would be presented, including the basic engineering projects.*

Sector: *Mining*

Activity: *Extraction of other non-ferrous metal ores*

Investment amount: *\$ 5,000,000 USD.*

Sponsor: *Ministry of Energy and Mines*

National investor: *GeoMinera S.A.*

Investment modality: *Risk contract for the exploitation of non-renewable natural resources*

Location(s): *It is located 25 km east of the city of Ciego de Ávila and 3.5 km ENE of the town of Gaspar., Municipality Varios, State Ciego de Ávila*

Contact: GeoMinera S.A.

Email: direccion@gmsa.cu

Tel.: + 5376902741
