

تقویم مناسبتهای تجاری، اقتصادی، IT، پزشکی و صنایع و برنامه سمینارها و کنفرانسهای جمهوری چک

در سال ۲۰۲۰

(مواردی که روی تاریخ برگزاری خط کشیده شده ، به دلیل شیوع ویروس کرونا ، لغو شده اند. امکان لغو متعاقب سایر مناسبتهای به همین دلیل وجود دارد.)

Name of Event	Date of the event	Description
"International Exhibition of 3D Technology" 3Dexpo	Tue, 28 - Thu, 3 - Apr 2020	This event showcases products from the additive industries like 3D printers, 3D scanners, 3D printing materials. Accompanying program contains workshops, talks and unique Battle of the 3D printers
International Academic Conference in Prague	Fri, 01 - Sat, 02 May 2020	The International Academic Conference in Prague, this conference will highlight areas like economics, management, and marketing, management consulting management education, training and development, natural sciences and business organizational behaviour, research methods, social sciences and business technology and innovation management
International Conference on Computer Supported Education (CSEDU)	Sat, 02 - Mon, 04 May 2020	International Conference on Computer Supported Education will help shape ongoing and future research projects aimed at Computer Supported Education will promote scholarship and networking among new researchers in this emerging interdisciplinary area and will expose these promising young researchers to the larger global community
International Conference on Finance, Economics, Management and IT Business (FEMIB)	Tue, 05 - Wed, 06 May 2020	International Conference on Finance, Economics, Management and IT Business aims to bring scientists, practitioners and decision-makers of these four areas together to foster a strong and well-connected community. We welcome innovative ideas, concepts, services, techniques, research outputs, and business practices. It will cover areas like Emerging Areas in FEMIB, IT Business, Management, Economics, and Accounting and Finance
International Conference On Evaluation of Novel Approaches to Software Engineering (ENASE)	Tue, 05 - Wed, 06 May 2020	International Conference On Evaluation of Novel Approaches to Software Engineering symposium will help shape ongoing and future research projects aimed at Evaluation of Novel Approaches to Software Engineering will promote scholarship and networking among new researchers in this emerging interdisciplinary area and will expose these promising young researchers to the larger global community
International Conference on Enterprise Information Systems (ICEIS)	Tue, 05 - Thu, 07 May 2020	International Conference on Enterprise Information Systems bring together researchers, engineers and practitioners interested in the advances and business applications of information systems. Six simultaneous tracks will be held, covering different aspects of Enterprise Information Systems Applications, including Enterprise Database Technology, Systems Integration, Artificial Intelligence, Decision Support Systems, Information Systems Analysis and Specification, Internet Computing, Electronic Commerce, Human Factors and Enterprise Architecture
International Conference on Internet of Things, Big Data and Security (IoTbDS)	Thu, 07 - Sat, 09 May 2020	International Conference on Internet of Things, Big Data and Security provide an opportunity for graduate students to explore their research interests in an interdisciplinary workshop, under the guidance of a panel of distinguished experts in the field. The Doctoral Consortium on Internet of Things, Big Data and Security is intended to bring together Ph.D. students within the Internet of Things, Big Data and Security field to discuss their research in an international forum
International Conference on Cloud Computing and Services Science	Thu, 07 - Sat, 09 May 2020	International Conference on Cloud Computing and Services Science will provide an opportunity for graduate students to explore their research interests in an interdisciplinary workshop, under the guidance of a panel of distinguished experts in the field
International Conference on Complexity, Future Information Systems	Fri, 08 - Sat, 09 May 2020	International Conference on Complexity, Future Information Systems and Risk will provide an opportunity for graduate students to explore their research interests in an interdisciplinary workshop, under the guidance of a panel of distinguished experts in the field

and Risk (COMPLEXIS)		
International Trade Fair of Engineering Technologies (For Industry)	Tue, 12 - Fri, 10 May 2020	For Industry is a great show which will offer opportunities for viewing the latest new techniques and comparing the latest items which are necessary for doing the job. The main fields of the trade fair are engineering, surface treatment, electrical engineering and power engineering, logistics and welding
Spring Industrial Fair	Tue, 12 - Fri, 10 May 2020	Spring Industrial Fair focuses on engineering, surface treatment, electrical engineering and power engineering, logistics and welding. This event exhibits products like business, logistics, modern technologies and current legislation etc
Pharmaceutical Aseptic Processing Summit	Tue, 19 - Wed, 20 May 2020	Pharmaceutical Aseptic Processing Summit overviewing regulatory updates and their implementation, main challenges and overcome consideration, new technologies and innovations to avoid mistakes and ensure safe highly potent aseptic production for both sides - manufacturer and patient
Helicopter Technology Eastern Europe Conference	Wed, 20 - Thu, 21 May 2020	The Helicopter Technology Eastern Europe Conference, the conference will cover areas like decision makers and technical experts alongside the helicopter manufacturers and cutting edge industry solution providers to collaborate on future endeavors that will enhance the security and stability of Eastern Europe and its neighbouring countries
Big Data Innovation Conference (BDIC)	Thu, 21 - Fri, 22 May 2020	Big Data Innovation Conference will help your business understand & utilize data-driven strategies and discover what disciplines will change because of the advent of data. With a vast amount of data now available, modern businesses are faced with many challenges. But with the challenges comes opportunity. At this conference, our keynote speakers will provide valuable insights, providing the attendees a learning opportunity to help you create new insight, help in how to use enormous data collected from different business channels and use this valuable information to develop business & drive growth
Annual Global E-Commerce Forum	Thu, 21 - Fri, 22 May 2020	Annual Global E-Commerce Forum will feature senior level, highly interactive case study driven, the tailor-made forum with a focus on what is needed to have the best B2B E-Commerce strategies, bringing together the best minds from the top consumer companies along with the top digital platforms. We allow participants to increase their understanding, sharing notes on the ins and outs of the whole process, with a customer and a human being at the very centre
International Conferences in Central Europe on Computer Graphics Visualization and Computer Vision (WSCG)	Mon, 18 - Fri, 22 May 2020	Research in computer graphics, computer vision, virtual reality and image processing" The International Conferences in Central Europe on Computer Graphics, Visualization, and Computer Vision is a platform to explore areas like Pattern recognition, GPU graphics, graphical human-computer interfaces, and geometric modeling. Several workshops and special sessions are planned, including meshless methods using radial basis functions
Big Data Innovation Conference (BDIC)	Thu, 21 - Fri, 22 May 2020	Big Data Innovation Conference will help your business understand & utilize data-driven strategies and discover what disciplines will change because of the advent of data. With a vast amount of data now available, modern businesses are faced with many challenges. But with the challenges comes opportunity. At this conference, our keynote speakers will provide valuable insights, providing the attendees a learning opportunity to help you create new insight, help in how to use enormous data collected from different business channels and use this valuable information to develop business & drive growth.
Power Platform 365 Prague	Sat, 23 May 2020	Power Platform 365 Prague will be an exciting opportunity for the global community to connect, exchange ideas and learn from each other. It will also focus on the various aspects of New Project Service, Working with Data - Integration, Analytics, The ultimate guide to UX design in PowerApps apps, Personalise your marketing with D365 Marketing, Dynamics365 AI / Customer Insights Deep Dive, etc
Communication Summit	Tue, 26 May 2020	Communication Summit theme will be Talk like humans. It is a perfect platform for exchanging views among client representatives from both companies and institutions and the agency representatives (including PR, advertising, research, consulting and media). It will focus on how to overcome barriers between companies and institutions and the people they talk to. It will help you to get better insights, understand human behavior and influence it effectively
<u>European Congress of Endocrinology (ECE)</u>	Sat, 23 - Tue, 26 May 2020	The European Congress of Endocrinology convenes endocrine specialists who will come together to exchange ideas and discuss the latest developments in the field. It will hope that the attendees have advanced their knowledge and connected with their colleagues in the European endocrine community
Precision Diagnostics Europe	Tue, 26 - Fri, 29 May 2020	Precision Diagnostics Europe will focus on most recent molecular methods including liquid biopsies and single cell profiling discussing sensitivity, specificity and reproducibility aspects and the attendees will also get to hear presentations from world-leading experts in molecular analyses and biomarkers with focus on precision diagnostics, quality aspects and regulatory guidelines
Prague City Data Congress (PCDC)	Thu, 28 - Fri, 29 May 2020	Prague City Data Congress will include discussion about modularity in the city by picking three main areas that are gaining traction- circular economy, innovation, and open-source. Around three hundred attendees will come together to address practical concerns in regard to advancing circularity, open-source, and innovation hubs and living labs in their cities
Conference for Mobile Developers (mDevCamp)	Fri, 29 May 2020	mDevCamp is the largest conference for Android and iOS developers in Central Europe and it will provide the attendees with the opportunity to gain information relating to topics such as not only from Android, iOS, but also AR, VR, Gaming, Design, AI, IoT, Web, Data, Security, and Apps...
Czech Republic VMUG Meeting	Wed, 03 Jun 2020	Czech Republic VMUG Meeting with the hyper-growth and hyper-sprawl of today's data, traditional data management is not enough. Data must become hyper-available. Getting there requires a new approach that merges the traditional disciplines of data backup and recovery, data protection and data security. VMware software powers the world's complex digital infrastructure. The company's cloud, networking and security, and digital workspace offerings provide a dynamic and efficient digital foundation to customers globally, aided by an extensive ecosystem of partners.

IDC IOT Forum	Thu, 04 Jun 2020	IDC IOT Forum has been part of our everyday life for several years now. The IoT market is growing through available solutions from an extensive ecosystem of technology vendors that provide IoT components or products, services, and expertise. While access to solutions depends on the level of end-user experience, the true benefit of IoT is based on a successful combination of IT and operational models, services, and expertise across ecosystem partners
International Conference on Science & Technology Research (ICSTR)	Thu, 04 - Fri, 05 Jun 2020	Due to COVID 19 Pandemic, this conference will be conducted 'Online' at a reduced fee of UDS 158. In order to continue with the academic activities, we will conduct a virtual conference using pre-recorded videos. All the participants should upload their presentations on YouTube and send us the link. The presentations will be posted on Eurasia Research's Facebook Page. The conference participants could ask questions to the presenter in the comments section. Benefits of the online conference: • Networking Experience: Your work will be shared with thousands of researchers around the world which are part of the Eurasia Research network. • Certification: Participants will be provided with a certificate of attendance and receipt of payment through email. • Publication: All accepted original research papers in the English Language, will be published in conference journals if the author follows editorial instructions/ guidelines. • Safe: Stay home and stay safe.
Veletrh Vedy	Thu, 04 - Sat, 06 Jun 2020	The Veletrh Vedy event will bring together scientific institutions, universities and companies. This is the largest popular educational event of its kind in the Czech Republic presented the results of the work of Czech scientific elites and innovative companies
International Business Education Social Sciences and Technology Conference (IBEST)	Mon, 08 - Tue, 09 Jun 2020	The International Business Education Social Sciences and Technology Conference aims to bring together scholar students and entrepreneurship from all levels of Business Education Social Sciences Tourism and Technology across the world. It will also provide a platform to enhance the knowledge and professional skills through interaction with colleagues and peers from different nationalities and backgrounds
World Congress on Parkinson's Disease and Related Disorders (IAPRD)	Sun, 07 - Wed, 10 Jun 2020	World Congress will highlight new frontiers in clinical management and research, focusing specifically on early diagnosis and disease modification across the spectrum of movement disorders. Every morning the Congress will begin with Plenary Sessions that will provide comprehensive overviews of the latest developments in research, as well as current diagnostic and therapeutic strategies for Parkinson disease and movement disorders
INVENT ARENA 2020	9 Jun- 11 Jun 2020	
BioTech and Czech-Swiss Symposium with Exhibition	Wed, 17 - Sat, 20 Jun 2020	BioTech and Czech-Swiss Symposium with Exhibition will cover all important aspects of advanced biotechnologies. The main scope of the symposium is to promote the exchange of information among academic and industrial researchers regarding technologies utilizing life-based systems to produce useful products and services
International Conference on Management and Information Technology (ICMIT)	Sun, 21 - Mon, 22 Jun 2020	International Conference on Management and Information Technology aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of Management and Information Technology. It also provides the premier interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Management and Information Technology
International Conference on Recent Advances in Medical and Health Sciences (ICRAMHS)	Sun, 21 - Mon, 22 Jun 2020	International Conference on Recent Advances in Medical and Health Sciences aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of Medical and Health Sciences. It also provides the premier interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Medical and Health Sciences
Hydropower Plant Digitalization Forum	Tue, 23 Jun 2020	The Hydropower Plant Digitalization Forum intends to bring together hydropower asset owners, decision-makers, and all related stakeholders to discuss enhancing hydropower plant efficiency and hydropower generation through digitalization, fleet optimization, condition monitoring, energy forecasting, and cyber-physical systems
Economics & Finance Conference Prague	Tue, 23 - Fri, 26 Jun 2020	Economics & Finance Conference Prague focuses on Microeconomics, Macroeconomics, Labour Economics, International Economics, Finance and Banking and etc.
World Symposium on Digital Intelligence for Systems and Machines (DISA)	Wed, 24 - Fri, 26 Jun 2020	The World Symposium on Digital Intelligence for Systems and Machines aims to provide a platform for a multidisciplinary discussion on the intelligence of real and virtual machines. Since we entered the era of big data, Internet of Things and cloud services, embodiment is no more required for intelligence and its evolution. The symposium should discuss and agree on the guidelines of designing intelligent machines (physical and virtual) and their connection in the sense of Industry 4.0/Reality 2.0.
Artificial Intelligence and Machine Learning for Advanced Drug Discovery and Development Forum	Wed, 01 - Thu, 02 Jul 2020	Artificial intelligence and machine learning have become widely discussed topics in the area of life sciences and healthcare over the last several years and the excitement keeps growing. While a lot of pharmaceutical companies and healthcare organizations express considerable interest in possible new opportunities, associated with the use of artificial intelligence for early drug discovery, clinical trial optimization, and business intelligence, a considerable gap still exists when it comes to understanding new technologies and identifying the impacts of AI in the progress level of drug delivery and development by pharmaceutical professionals and leaders
Artificial Intelligence and	Wed, 01 - Thu,	Artificial intelligence and machine learning have become widely discussed topics in the area of life

Machine Learning for Advanced Drug Discovery and Development Forum	02 Jul 2020	sciences and healthcare over the last several years and the excitement keeps growing. While a lot of pharmaceutical companies and healthcare organizations express considerable interest in possible new opportunities, associated with the use of artificial intelligence for early drug discovery, clinical trial optimization, and business intelligence, a considerable gap still exists when it comes to understanding new technologies and identifying the impacts of AI in the progress level of drug delivery and development by pharmaceutical
Global Leadership Symposium (GLS)	Sun, 14 Jun – Sat, 04 Jul 2020	Global Leadership Symposium is an immersive training designed for the next generation of world leaders to expand their worldview, examine the foundations of sound governance and economics, and learn how to partner with God in business using principles of business excellence. This symposium focuses on how revolutions, new governments, tremulous economies, and shifting geopolitical alliances are creating times of uncertainty and unprecedented change
Global Congress on Immunology and Vaccination	Mon, 20 - Tue, 21 Jul 2020	The rapid changes occurring all over the world has brought many changes in the lifestyle of human beings. Along with much technological advancement, many biologically harmful microbes started invading this world and these pathogens maybe highly resistant towards the human immune system. Exchange of thoughts about prevention (vaccination) and the improving our immune system in this conference keeps you updated in all the aspects of immunization and the vaccine world. One such platform that is designed especially for the exchange of thoughts and enhancing knowledge is the 4th Global Congress on Immunology and Vaccination. This is going to be held from July 20-21, 2020, in Prague, Czech Republic
World Congress on Chemistry, Drug Design and Development (WCCDDD)	Mon, 20 - Tue, 21 Jul 2020	"Recent Research and Challenges in Drug Design and Development" In this Drug Design 2020 Conference contains the session like Oral Presentation/ Speaker/ Video Presentation/ E-Poster Presentation/ Workshops. Our Drug Chemistry Conference aims to invite Researchers, Professors, CEOs and professionals from both academic and industry backgrounds. That will lead interact themselves and share some ideas over Drug Chemistry and Drug Design to Encourage new innovations in the field of Drug Chemistry. We are looking forward to the Drug Chemistry 2020 Congress to be Successful and that will more effective and wonderful for the participants. We Welcome all the Drug Chemistry and Drug Design Professionals, Delegates, Researchers, and Students to make your presence in Prague, Czech Republic by July 20-21, 2020
International Conference on Robotics and Artificial Intelligence (Robotics and AI)	Mon, 20 - Tue, 21 Jul 2020	The scope of the conference is to promote quality research and to bring the scientists and engineers under one roof to share their research findings with the global experts. It covers the latest development and future perspective relating to robotics and artificial intelligence. The conference brings the administrators, policymakers, researchers within the field of robotics and artificial intelligence. This conference gives the opportunity to learn new things and understand the current situation of the market and provide a prominent platform by gathering professors, researchers, students, and delegates to exchange new ideas. Opportunity to learn new things and understand the current situation of the market. Take new ideas, innovate yourself, get knowledge from others, express yourself.
International Conference on Nursing Science & Technology	Wed, 22 - Thu, 23 Jul 2020	International Conference on Nursing Science & Technology will be an excellent platform to all Nurses and Healthcare professionals, Doctors, Researchers, Nursing faculties, Deans, Nursing students and Educators from leading universities of nursing to discuss their research experiences on all the aspects and advancement in the field of nursing. The two days of educational program will also host research and healthcare quality driven oral, Keynote presentation, poster presentation session and workshop
International Conference on Stroke and Cerebrovascular Diseases (EUROPEAN STROKE CONFERENCE)	Mon, 27 - Tue, 28 Jul 2020	"Stroke 2020 has been planning and aiming to stimulate new techniques for the treatment of Stroke" European Stroke has been planning and aiming to stimulate new techniques for the treatment of Stroke and Cerebrovascular Diseases that would be beneficial for the Neurology, Neurosurgery and Neuro Oncology. The conference will be organized around the theme Stroke Awareness: Courage, Faith, Hope and Strength.
World Congress on Electrical Engineering and Computer Systems and Science (EECSS)	Thu, 13 - Sat, 15 Aug 2020	World Congress on Electrical Engineering and Computer Systems and Science are aimed to become one of the leading international annual congresses in the fields of electrical engineering and computer systems and science. This congress will provide excellent opportunities to scientists, researchers, industrial engineers, and university students to present their research achievements and to develop new collaborations and partnerships with experts in the field.
International Conference on Computer and Information Science and Technology (CIST)	Thu, 13 - Sat, 15 Aug 2020	International Conference on Computer and Information Science and Technology aim is to gather scholars from all over the world to present advances in the relevant fields and to foster an environment conducive to exchanging ideas and information. This conference will also provide an ideal environment to develop new collaborations and meet experts on the fundamentals, applications, and products of the mentioned fields.
International Conference on Multimedia and Human-Computer Interaction (MHCI)	Thu, 13 - Sat, 15 Aug 2020	International Conference on Multimedia and Human-Computer Interaction is to gather scholars from all over the world to present advances in the relevant fields and to foster an environment conducive to exchanging ideas and information. This conference will also provide an ideal environment to develop new collaborations and meet experts on the fundamentals, applications, and products of the mentioned fields
World Congress on Psychiatry and	Mon, 17 - Tue, 18 Aug 2020	"Perspectives for improvement in Psychiatry, Psychology and Mental Health" We take the pleasure to proudly present World Congress on Psychiatry and Psychology at Prague, Czech Republic. This Conference mainly focuses on Psychiatry, Psychology, Mental Health,

Psychology (Psychiatry Conference)		Psychiatric disorders or Psychological syndromes and therapies. World Congress on Psychiatry and Psychology is an annual meeting of renowned Psychiatrists as well as Psychological committees, Psychologists, Mental health practitioners, Nurses, Medical Officers, Doctors, Neurologists, Head of Psychiatry Organizations, Professors, Ph.D. scholars, Young Researchers, Students and interested participants. This conference is primarily focused to discuss the future of the Psychiatry, Psychological Syndromes, advancements, therapy and issues we are facing in the field of Psychiatry with mutual collaborations and organizational development.
World Congress on New Technologies (NewTech)	Wed, 19 - Fri, 21 Aug 2020	World Congress on New Technologies is aimed to become one of the leading international annual congresses in the fields of new technologies. This congress will provide excellent opportunities to scientists, researchers, industrial engineers, and university students to present their research achievements and to develop new collaborations and partnerships with experts in the field.
International Conference on Energy Research and Technology (ICERT)	Wed, 19 - Fri, 21 Aug 2020	The International Conference on Energy Research and Technology aims to become the leading annual conference in fields related to energy research and technology. The goal of ICERT is to gather scholars from all over the world to present advances in the relevant fields and to foster an environment conducive to exchanging ideas and information. This conference will also provide an ideal environment to develop new collaborations and meet experts on the fundamentals, applications, and products of the mentioned fields.
International Conference on Nanotechnology: Fundamentals and Applications (ICNFA)	Wed, 19 - Fri, 21 Aug 2020	International Conference on Nanotechnology: Fundamentals and Applications aim is to gather scholars from all over the world to present advances in the relevant fields and to foster an environment conducive to exchanging ideas and information. This conference will also provide an ideal environment to develop new collaborations and meet experts on the fundamentals, applications, and products of the mentioned fields.
World Congress on Nursing Research and Evidence-Based Practice	Mon, 24 - Tue, 25 Aug 2020	"Current Innovations and Techniques in Nursing and Healthcare" The conference comprises eminent personalities with their keynote presentations, verbal speeches, productive poster presentations and exhibitions along with a discussion forum providing the insights on the Nursing Research. Nursing Research 2020 takes immense pleasure in welcoming all the participants from across the globe to attend the 9th World Congress on Nursing Research and Evidence-Based Practice during May 04-05, 2020 at Prague, Czech Republic. The conference comprises eminent personalities with their keynote presentations, verbal speeches, productive poster presentations and exhibitions along with a discussion forum providing the insights on the Nursing Research
International Conference on Public Health	Mon, 24 - Tue, 25 Aug 2020	International Conference on Public Health will provide a wonderful opportunity for you to rejuvenate your knowledge base and explore the inventions in public health and health care management our Conference will endeavor to offer plenty of networking opportunities and also providing you with the opportunity to meet and interact with the leading researchers & scientists, as well as sponsors and exhibitors and it aims to promote awareness and enhance research aiming in emerging solutions for the various public health challenges come across.
World Summit on Artificial Intelligence (WSAI)	Mon, 24 - Tue, 25 Aug 2020	World Summit on Artificial Intelligence is a blend of unique perspectives and experiences that makes for energetic discussions and exchange of ideas.
World Cardiology Congress	Wed, 26 - Thu, 27 Aug 2020	World Cardiology Congress objective is to bring together all Cardiology professionals and academicians from all areas of cardiology and associated disciplines. Cardiology 2020 conference comprises of Keynote and Plenary sessions by renowned personalities from around the globe. Cardiology congress will provide an opportunity for cardiologists, academics and other related specialists to exchange research evidence and innovative ideas on issues related to Heart.
<u>International Conference on Food Processing and Technology</u>	Wed, 26 - Thu, 27 Aug 2020	International Conference on Food Processing and Technology will cover topics like Food Innovations, Microbiology of Foods, Trends in Food Packaging, Health and Nutrition, Enzymes in Food, Food Additives and its Impact, Processing of Fruits and Vegetables, Agri Food Technology, Chemistry of Food and Bio-processed Materials, Food Choice and Consumer Behavior, Food Safety and Hygiene, Food-borne Diseases, Advancement in Food Technology, etc
World Congress on Neurology and Therapeutics (WCNT)	Fri, 28 - Sat, 29 Aug 2020	"Know the Unknown Advanced Solutions on Neurology" It was a tremendous success over the year to establish a strong affinity with our advanced neurological solutions, diagnosis and Neurotherapeutics. We've constructed this year's neurology conference primarily based on input from you, so get equipped for a streamlined agenda packed with neurologists, neurosurgeons, neuro specialists, neuro freaks, neuro physicians, industry insights, innovations, and masses of opportunities to share ideas and provide remarks. Our propitious neurology congress is tailored around the theme "Know the Unknown Advanced Solutions on Neurology". It is all really worth to know from Advanced Neurology to reach its great heights than our last event.
International fair of passenger-cars and light commercial motor vehicles and automobile tuning, car-parts, car accessories, services and garage technolog (Autoshow Praha)	Sat, 29 - Sun, 30 Aug 2020	Autoshow Praha showcases passenger cars, parts of motor vehicles, commercial vehicles, repair equipment, autodesign, tuning, accessories, audio and video technology for cars, navigation, mobile media and communication, equipment and means for washing and care of vehicles, engine oils and lubricants, security devices, mechanical security systems, electronic security systems, search for stolen vehicles
PharmAround	Tue, 01 - Wed,	PharmAround Conference is intended mainly for physicians, pharmacists, the pharmaceutical

	02 Sep 2020	industry, academic workers and other healthcare professionals but as well for patients and patient organisations. It focuses on precise medicine from the perspective of pharmacogenetics and innovative testing technologies in solid oncology, advanced therapy medicinal products - from development to clinical applications – CZECRIN Symposium, off-label use of medicines in the age of precision medicine - not just innovative modern medicines and etc
The International Symposium on Microsomes and Drug Oxidations (MDO Prague)	Sun, 30 Aug – Thu, 03 Sep 2020	The organizers are convinced that time is now ripe to discuss and elucidate the ties connecting the structure of the drug metabolizing systems with subtle regulations governing their activity and expression and to find appropriate models for this complex phenomena, crucial for human health and rational drug use. The chosen theme of the meeting and the construction of its program are reflecting this idea
International Nutrition And Diagnostics Conference	Tue, 01 - Fri, 04 Sep 2020	International Nutrition And Diagnostics Conference is an annual leading meeting which represents an invaluable resource for nutritionists, medical doctors, analytical chemists, biochemists, chemists, and those in the clinical diagnosis seeking new technologies and new approaches in the field of nutrition, food diseases, food components, and health trends. INDC is continuously growing and it is reflected by the participation of more than 40 nationalities and scientific contributions from a variety of application areas. We hope that you will find your participation in our conference rewarding and professionally stimulating
Annual Conference of the European Association for Education in Electrical and Information Engineering (EAEEIE)	Wed, 02 - Sat, 05 Sep 2020	The Annual Conference of the European Association for Education in Electrical and Information Engineering will provide the attendees with the opportunity to gain insights relating to topics such as Educational methods and innovations in engineering education, Research and innovation as a part of education, Educational games and simulations, The student perspective of electrical and information engineering, International partnerships and European curricula, etc.
International Conference on Future of Business, Management and Economics (ICFBME)	Fri, 04 - Sun, 06 Sep 2020	The International Conference on Future of Business, Management and Economics aims to bring together researchers, scientists, and scholar students to exchange and share their experiences, new ideas, and research results about all aspects of Business, Management and Economics to discuss the practical challenges encountered and the solutions adopted
Prague Business & Economics Conference (Prague Academic Conference)	Sun, 06 - Wed, 09 Sep 2020	The Prague Business & Economics Conference, organized by the global academic institute will take place from 19th April to the 22nd April 2020 in Prague, Czech Republic. The conference will cover areas like Business Ethics, Marketing, Finance, Management, Human Resources, and many more
European Urology Residents Education Programme	Fri, 04 - Wed, 09 Sep 2020	The European Urology Residents Education Programme offers significant updates and overview of modern urological practice. Its intensive six-day course features illustrations on the improvement of laparoscopic, ureteroscopic and transurethral resection skills
World Congress of Anaesthesiologists (WCA)	Sat, 05 - Wed, 09 Sep 2020	World Congress of Anaesthesiologists will cover topics like acute and chronic pain medicine, professionalism and wellness, research & practice guideline development, trauma, and critical emergency medicine, neuroanesthesia and neurocritical care, geriatric anesthesia, palliative care, and much more.
Days of Heating and Power Engineering	08 - 09 Sep 2020	Days of Heating and Power Engineering will be a conference with an accompanying exhibition and it will provide the attendees with the opportunity to gain insights relating to the thematic blocks such as Transformation of Heating 2030, Utilization of Biomass in Heating, Customer Care, Technology and Technology in Heating, Application of Heating Plants on the Electricity Market, etc
Interdisciplinary Information Management Talks (IDIMT)	Wed, 09 - Fri, 11 Sep 2020	Interdisciplinary Information Management Talks as interdisciplinary international forum for the exchange of concepts and visions in the area of software intensive systems, management and engineering of information and knowledge, social media, business engineering, and related topics. It involves a multi-national, multidisciplinary audience in discussing up-to-date and evolving topics
Future Port Prague	Thu, 10 - Fri, 11 Sep 2020	Future Port Prague brings together innovators, entrepreneurs, and visionaries. During two days, we present the most pressing topics concerning the future of technology, humanity, and leadership. At the expo, hundreds of companies show their latest innovations, technologies, and ideas. Don't miss the opportunity to meet the community
Annual Credit Risk Management Forum	Thu, 10 - Fri, 11 Sep 2020	Annual Credit Risk Management Forum will highlight areas like Advantages and disadvantages of machine learning, Main provisions of IRRBB, Risk management vs. cybersecurity, Risk management and SREP: what are the new challenges, and Basel IV and IFRS9 – What is still new under the sun
International Days of Statistics and Economics	Thu, 10 - Sat, 12 Sep 2020	International Days of Statistics and Economics aims to present and discuss current problems of statistics, demography, economics and management and their mutual interconnection
The European Summit Affiliate Conferences (TES)	Fri, 11 - Mon, 14 Sep 2020	The European Summit Affiliate Conferences brings together professionals from the online entertainment industry, e-commerce, financials, gaming, gambling, dating, forex, health,

Affiliate Conferences)		nutraceuticals and many others for an intensive 3-day networking even
International Conference on Pharmacy and Pharmaceuticals	Mon, 14 - Tue, 15 Sep 2020	International Conference on Pharmacy and Pharmaceuticals, the theme is Exploring & Advancing new innovations in modern pharmacy and pharmaceuticals. The occasion embedded a firm connection of up and coming procedures in the field of Pharmacy and Pharmaceuticals with mainstream researchers. Pharmacy meet assembles the worldwide class Pharmaceuticals specialists and works together to investigate and uncover imaginative research on Pharmacy and Pharmaceuticals.
International Summit on Women's Health & Breast Cancer	Mon, 14 - Tue, 15 Sep 2020	International Summit on Women's Health & Breast Cancer invites participants from all over the world to attend and share their insights and convey recent developments in the field of Women's Health. The main theme of the conference is Enriching the Lives and Wellness of Women.
Write The Docs Prague	Sun, 13 - Tue, 15 Sep 2020	Write The Docs Prague Conferences are focused on documentation systems, tech writing theory, and information delivery. We consider everyone who cares about communication and documentation and their users to be a member of our community. This can be programmers, tech writers, customer support, developer advocates, marketers, and anyone else who wants people to have great experiences with software
International Symposium on Distributed Simulation and Real Time Applications (DS-RT)	Mon, 14 - Wed, 16 Sep 2020	International Symposium on Distributed Simulation and Real-Time Applications serve as a forum for simulationists from academia, industry and research labs, for presenting recent research results in Distributed Simulation and Real-Time Applications. DS-RT targets the growing overlap between large distributed simulations and real-time applications, such as mirror world simulations and collaborative virtual environments.
Annual Inhaled Drug Delivery Summit	Thu, 17 - Fri, 18 Sep 2020	The Annual Inhaled Drug Delivery Summit facilitates hands-on experience sharing of successful development of inhaled drug products for enhanced patient care. It will feature talks on Predictive models for respiratory therapies, Microfluidic tissue chips for respiratory health, Inhaled triple therapy, Pulmonary immune-modulation, Pulmonary hypertension, Paediatric aerosol therapy, Inhaled therapies of repurposed drugs, etc.
<u>Imeko Foods conference</u>	Wed, 16 - Fri, 18 Sep 2020	Imeko Foods conference, researchers, industries, and people involved in food control and nutritional studies will present and discuss their findings on new measurement techniques, analytical methods & devices, reference materials, measurement uncertainty, data integration & sharing in support of food analyses. This conference focuses on the quality and safety of plant and animal agricultural products, food safety – contaminants, trace elements, natural toxins, food hygiene, allergens, environmental aspects, food security, food authenticity, food integrity – quality, food comics
